Fast, fun, & highly addictive. Definitely worth picking up.. Considering that this game is very early access, I have to admit its rather addictive, even though there's not alot to do. So far, I am enjoying the map, finding loot and evading the creatures of the night. The Developer sounds like he's a cool guy, so I am sure he will continue adding and refining. I also find its a fresh take on the usual survival games (other than zombies).

7/10

loses 1 mark for the lack of gamma adjustment

loses 1 mark for lack of enemy types

loses 1 mark for restricted crafting

That said when all these are rectified it will be a very nice game indeed!. Game is broken at the start. you can't get past the tutorial. Originally purchased this game through Humble Bundle, but decided to support the developer once again through Steam (also by writing a positive review).

During the first moments of playing, I was a bit confused since this game is not focused on story at all -- and that's what I loved most about Nifflas' previous game Knytt Underground. Soon after I was totally okay with that -- the game is real fun with it's unpredictability, great audio and visual style (worth noting that Uurnog Uurnlimited was nominated for Best Design and Best Audio on IGF), quirky animals and >>EXPLOSIONS<<. I especially enjoyed playing co-op (playing as a DOG shooting FIREBaLLS?? how cool is that??) and exploring the colourful, radiant world of this game. Also it's great how Nifflas experimented with permadeath in a not-really-punishing way while keeping the game challenging.

So yeah, I certainly recommend the game, especiaiy for those who enjoy exploring & exploding!. Enjoyable game. Runs well on my pc without crashes. Graphics are good, pixel style. Could use a tutorial or some other explanation of the controls. Not sure how to make a profit, some explanation of the trading would also be welcome. Perhaps a bit more polish necessary.

thank you

. Its just a good FreeLC, something they should have done a long time ago. This game is by far one of the best games i've ever played. The music in this game fits extrodinarily well with the gameplay and makes me want to play it more. the graphics crazy good. I can tell just by looking at it how much time and dedication the developers put into this game. The physics of the game honestly i have no idea how they made. The collision detection is insane and i have no idea how my computer can handle how much stuff is going on in it. Now for the best part, THE STORY. To be honest i didn't expect this game to have a story at all, but oh was I wrong. I don't want to spoil anything since that would be bad, but I have to say it made me cry. It reminded me alot of my struggles getting diagnosed with type 1 diabetes. The main character I could relate with so much and it felt like they put me in the game. I never expected such an extrodinary game to exist, but it does. I DEFINITELY recommend buying this game. The amount of sweat and tears that must have gone into this game is unimaginable.. Great game. Dont know why more people are not jumping on a game like this. Wish there was even more to do for the town. But with low sales. Just glad the game works. Keep it up.. rpg[REDACTED]. I really like this game. true it doesn't feel finished but i still really like it. it isn't that expensive either. i hope the devs finish the game. its a survival game in space there are no jumpscares. i find it relaxing combing through a ship or station looking for resources. there is a lot to do you have to like the grind build your base to ridiculous proportions find research points to level up skills. and i found an easy solution for the lock problem you have to look at them from the side the rings are in a cone shape formation. oh and don.t have to many items in physical inventory or the game starts to lag (i only had promblems after i had over 100+ items in physical inventory). still i can handle te bugs but i do hope the game wil get a polishing soon.. Game play for around a level 30 character on Normal. Its decently long DLC, it's got a decent amount of bosses and mini bosses. Lots of new gear to find, it has relic storage and auto sort in the storage.
